PRODUCT APPLICATION PRESENTATION

PRODUCT IDENTIFIER:

PROCESS IDENTIFIER:

TCI 103 H.D.TM

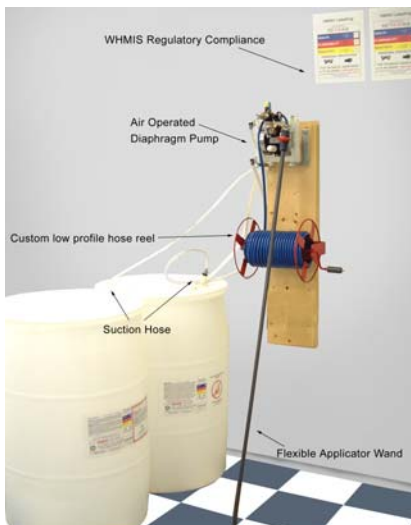

BIODEGRADABLE MICRO-EMULSION SOLVENT DEGREASER

PRODUCT PRESENTATION

TCI 103 H.D. CITRUS - SOLV is a micro-emulsion orange solvent cleaner degreaser concentrate that combines the cleaning ability of biodegradable detergents with the grease cutting action of d'limonene solvents in a NEUTRAL medium.

STATIONARY APPLICATOR SYSTEM

PROCESS SPECIFICITY

TCI 103 H.D. may be applied in the INDUSTRIAL SETTING, AVIATION, AGRICULTURAL and AUTOMOTIVE INDUSTRY on equipment, where oil, grease, varnish, machine coolants, bituminous deposits (ie. tar & asphalt), baked-on hydrocarbons and exhaust soot (ie. diesel edge) are a cleaning problem. It may be prepared for the bucket and brush operation on light and medium soil; preferably mixed at 1-4 liters per "8 litre weed sprayer" and sprayed onto the soiled surface, brushed and rinsed with a garden hose. Very stubborn stains apply as is, agitate and rinse. Paint stripping requires hot tank immersion of soiled parts for 10 minutes to 24 hours.

PROCESS INTRODUCTION

TCI 103 H.D. is designed to be added to cold or hot water; the strength adjusted to the degree of soil complexity. It is safe to use on all surfaces that are water safe. It removes complex soils ie. road film, light oils and greases, residues of tar, black streaks from mobile home exteriors, from carpets, vinyl materials, siding on houses and cottages, parts cleaning of trucks, automobiles and recreational vehicles. Ideal for machine shops to clean the coolant residues off machines, walls, floors and ceilings. Cleans quickly and rinses spot free in soft water also depositing an anti-static moisture repellent. It has a pleasant working aroma. In the industrial setting it may be used to safely strip paint from aluminum and ferrous metals as well as other materials ie. wood when immersed in a hot aqueous bath.

PORTABLE APPLICATOR SYSTEM

PACKAGING: 01, 04, 25, 205 Liters
