PRODUCT APPLICATION PRESENTATION

TCI 106 H.D.™

NON-AQUEOUS SOLVENT DEGREASER

PRODUCT IDENTIFIER:

PROCESS IDENTIFIER:

PRODUCT PRESENTATION

TCI 106 H.D. NON-AQUEOUS SOLVENT DEGREASER is a clear, colorless liquid. It is made from **virgin stock**. It is not soluble or emulsifiable in water. The cleaning performance and longevity is superior to **RECYCLED WASTE SOLVENT PRODUCTS**.

At the finished product stage, it does not contain contamination carcinogens which cannot be removed in the distillation process from recycled waste solvent collections.

TCI 106 H.D. is non-residual and dries film free.

Applications of this solvent formulation are non-conductive and non-corrosive (no ionization properties).

It does not promote flash rusting.

It meets the HMIS flammability risk of "2" for high flash point.

PROCESS INTRODUCTION

TCI 106 H.D. is an innovative new liquid cleaning formulation designed to meet today's cost conscious, stringent performance and environmentally conscious maintenance needs.

It is designed to remove oil, dirt, grease, tar, varnish and a combination of this dirt from any metal, plastic, rubber and ceramic surfaces with minimal agitation.

Soiled parts cleaned in TCI 106 H.D. dry film free.

It does not harm cured paints while cleaning occurs or after the surface has been washed.

PROCESS SPECIFICITY

TCI 106 H.D. is designed for the machine shop, electronics, steel and aluminum fabricators, engine rebuilders, auto electric rebuilders, transmission rebuilders, automotive service and agricultural related industries.

It is versatile and economical. It is ideal for immersion and recirculating tanks like our custom made MODEL 10, MODEL 45, MODEL 75 and MODEL 100 (SEE "**PARTS WASHERS**" button @ www.tetra-chem.com), vibratory finisher's, media shakers, media tumblers and air siphon guns. The surfaces being cleaned can be air dried with forced air without leaving contaminating residues.

TCI 106 H.D. is used at full strength.

PACKAGING: 205 LITERS

SOLUTION DISPOSAL

1. It is our intention to provide our customers with non-recycled products of known ingredients that have a clean bill of health.
2. Saving our customers unnecessary expenses by maximizing the longevity of the fluid and minimizing service times on a customer demand basis only.
3. Provides a **no charge** waste disposal management system at the customer's request.

According to the Ontario Ministry of the Environment and Energy "Regulation 347" and local municipal by-laws, the cleaning process has generated a liquid industrial waste.

ONTARIO CERTIFICATE OF APPROVAL # A 800506
