## PRODUCT APPLICATION PRESENTATION

**TCI 711 H.D.™ NEW CONCEPT POWDER**

**SAFE, ALL SURFACE, BRUSHLESS COLD PROCESS ROAD FILM REMOVER**

**PRODUCT IDENTIFIER:**

**PROCESS IDENTIFIER:**

### PRODUCT PRESENTATION

**TCI 711 H.D.** is a blend of powerful biodegradable detergents precisely formulated to attack and release the soil structure on surfaces encountered in the transportation industry. Thru a patented process the active ingredients are concentrated, solidified and ground into an easy to use white powder. Reconstitution with water is done on site.

**TCI 711 H.D.** features personal safety, compact storage, economical and energy saving transportation, ONE PRODUCT that can handle the toughest jobs when used according to directions.

### PACKAGING:

021, 100 & 200 Kg

### PROCESS INTRODUCTION:

**TCI 711 H.D.** is charged directly from the shipping container (Portion Packs) to the mixing tank supplied. Add the recommended quantity of warm water and stir. No flammability risk. By performing a simple test determine the desired strength. An air operated diaphragm demand pump which is mounted directly in the washbay over the drum is used to prespray the surface to be cleaned with a 6' wand and 100' hose. The operating pump is regulated to 60-80 p.s.i. giving a precise, even coverage. Product consumption is reduced to the absolute required minimum. Enormous labor savings realized when the surface is finally rinsed with cold water at 4 gallons per minute and 3000p.s.i.

**5oz /gal = Brushless**

**1oz /gal = Brushing required.**

### PROCESS SPECIFICITY:

The process can be implemented for cleaning all types of painted surfaces, chrome, ferrous and non-ferrous metals, aluminum (daily or weekly maintenance will not tarnish or dull wheels, fuel tanks or bodies) stainless steel, including all truck accessories. The cleaning can be performed outside or in a wash bay without risk to property, personal and the environment.

**TCI 711 H.D.** has no corrosive or detrimental effect.

### CAUTION

**NEVER SPRAY ANY CHEMICAL  
ON A SUN BAKED HOT  
SURFACE COOL IT!**

The finished product will be streak free, spotless and protected by an electrostatically bounded film that improves reflectivity of light.
